Preface xxix

PART I: Studies on Conventional Manufacturing Practices 1

1. Removal of Stepped Feature in Multistage Single Point Incremental Forming 3
Nikhil Bari, Vikas Sisodia, Shailendra Kumar, and Prashant K. Jain

2. Microwave Casting of Metallic Materials: A Review 23
Deepak Kumar Patel, Neeraj Kumar Bhoi, and Harpreet Singh

3. Cutting Force and Cutting Temperature Modeling in Milling of Superalloys and Composites: A Review 37
Shailendra Chauhan, Rajeev Trehan, and Ravi Pratap Singh

4. To Improve Wear Resistance of Cast Iron Deposited by Detonation Sprayed Ni–Cr Coating 61
Yatan Nagpal, Pardeep Sharma, and Rohit Sharma

5. Effect of Magnetic Field Media on the Fluid Flow of Continuous Casting Mold with Application of Magnetic Field in x-, y-, z-directions 71
Sunil Kumar Jatav, Krishna Kumar, Sandip Sarkar, S. K. Ajmani, and M. K. Banerjee

6. Experimental Evaluation of Mechanical and Metallurgical Properties of Gray Cast Iron 87
M. Vijay Kumar, B. S. Ajay Kumar, and Pranita Madalli

7. A Critical Review on Bainitic Structure after Shot Peening in High Silicon Spring Steel..... 99
Kuldeep Dwivedi, Rajan Kumar, and Ravi K. Dwivedi

8. Virtual Reality Applications in the Manufacturing Field 107
Mohd Javaid, Abid Haleem, Ravi Pratap Singh, and Rajiv Suman

9. A Survey on Responses and Optimization of Process Parameters in Milling: A Review.....	123
Ashutosh Kumar Gupta and Ravi Pratap Singh	
PART II: Studies on Advanced/Matrix Composite Materials	137
10. Microstructural Evaluation of Al Matrix Reinforced $\text{Al}_2\text{O}_3\text{-C/SiC/TiO}_2$ Hybrid Metal Matrix Composite	139
Naseem Ahamad, Aas Mohammad, and Pallav Gupta	
11. An Insight into Cyclic Oxidation Behavior of ZrB_2-20 vol.% MoSi_2 Based Ultrahigh Temperature Ceramic Matrix Composite	149
Mainak Saha, Sourajit Pramanik, Rajdeep Banik, Pooja Maurya, Simrat Singh, S. Vandan Raj, D. Prem Madhur, Tanay Rudra Paul, Rahul Mitra, Manas Kumar Mondal, and Manab Mallik	
12. Experimental Study of Aluminum Metal Matrix Composite Using Electrodischarge Machine: A Review.....	165
Sourav Majumdar, Neeraj Kumar Bhoi, and Harpreet Singh	
13. Robust Comparison of Al/Mg Alloys Based Hybrid Metal Matrix Composites: A Review.....	179
Nikhilesh Singh, R. M. Belokar, and R. S. Walia	
14. Investigation on Fiber-Reinforced Cementitious Composite Containing Waste Products.....	193
Harsh Yadav, Ankesh Kumar, Pawan Kumar, Maninder Singh, and Babita Saini	
15. Analysis of Tribological Properties of Aluminum Metal Matrix Composite Fabricated by Stir Casting Method.....	203
Faim Khan, N. Yuvaraj, Lakshay Tyagi, Luckshaya Kem, and Ravi Butola	
16. Impact Behavior of Glass and Carbon-Fiber-Based Reinforced Polymer Composites.....	215
Mahendra Singh Tomar and Satnam Singh	
PART III: Case Studies on Welding/Joining Processes	229
17. Experimental Investigations on Effect of Tool Welding Speed on Microstructure and Tensile Properties of FSW Dissimilar Joints Reinforced with SiC Nanoparticles	231
K. S. Anil Kumar, H. Rajneesh, and H. C. Madhu	

18. **Effect of Tool Pin Profile on Mechanical and Wear Properties of Friction Stir Welding of Dissimilar AA6061 and AA5052 Aluminum Alloys.....245**
Pradyumn K. Arya, Bhavesh Chaudhary, Neelesh Kumar Jain, and M Jayaprakash

19. **Taguchi-GRA-Based Multiobjective Optimization of Underwater Friction Stir Welding of AA 6061-T6 Alloy261**
Kiran Wakchaure and Ajaykumar Thakur

20. **Improved Mechanical and Abrasive Wear Performance of AISI 304 Stainless Steel with IN625 Alloy TIG Weld Cladding279**
Neeraj Kamboj and Lalit Thakur

21. **Influence of Welding Speed on the Metallurgical and Corrosion Performance of AISI 316 SS Welded Joints293**
Subodh Kumar, Bhuvnesh Bhardwaj, Varun Sharma, and Shailender Singh Bhadauria

22. **Effect of Friction Welding Conditions on the Mechanical Properties of Welded Joints During Welding of Dissimilar Materials.....305**
Bhuvnesh Bhardwaj, Subodh Kumar, Varun Sharma, and Shailender Singh Bhadauria

23. **Effect of Electrode Geometry in Resistance Spot Welding of Low Carbon Steel Sheets.....319**
Anand Kumar Mandal, Rakesh Kumar, Kapil Kumar Goyal, and R. S. Jadoun

PART IV: Studies on Advanced/Hybrid Machining Solutions341

24. **Parametric Optimization of Electrodischarge Face Grinding: A Hybrid Machining Process343**
Akshat Srivastava Kulshrestha, Ashok Kumar Dargar, and Deepak Rajendra Unune

25. **A Study on the Machining Behavior and Optimization of Process Parameter of AA5051 Using Electrodischarge Machine357**
Richa Mishra, Neeraj Kumar Bhoi, and Harpreet Singh

26. **Disquisition of Impact of Key Electric Discharge Machining Input Parameters on Various Process Characteristics: A Review369**
Rahul Soni, Ravi Pratap Singh, and Shailender Singh Bhadauria

27. **Powder-Mixed Micro-Electrical Discharge Machining of Biodegradable AZ91D Magnesium Alloy: An Experimental Investigation.....387**
Santosh Kumar Yadav, Abhishek Singh, and Kishore Debnath

28. Assessing the Effect of Nonelectrical Process Parameters during the STED of Holes on Inconel 718 Alloy.....	405
Anuj Vats, Ramver, Akshay Dvivedi, and Pradeep Kumar	
29. Study on Electric Discharge Machining of Al7075 T651 Alloy: An Experimental Investigation	423
Rahul Soni, Ravi Pratap Singh, and Shailender Singh Bhadauria	
30. Parametric Analysis and Numerical Investigation of Hot Abrasive Jet Micromachining Using Computational Fluid Dynamics	437
Subhadip Pradhan, Sourav Sanket Tripathy, Sushreesudha Sahu, Sudhansu Ranjan Das, and Debabrata Dhupal	
31. Material Removal Rate Analysis for Economical Feasibility Study in Abrasive Jet Machining with Different Temperatures Using K-92 Ceramic.....	455
Subhadip Pradhan, Sushreesudha Sahu, Sourav Sanket Tripathy, Sudhansu Ranjan Das, and Debabrata Dhupal	
32. A Review on the Effect of Process Parameters in Electrochemical Machining of Advanced Materials	473
Madhusudan Painuly, Ravi Pratap Singh, and Rajeev Trehan	
<i>Index.....</i>	<i>487</i>
