1	Introduction to Supply Chain Simulation	1
1.1	Introduction	1
1.2	Analytical or Simulation-Based Models?	2
1.3	Characteristics of a Simulation Model	3
1.4	Objectives of Supply Chain Simulation	4
1.5	Types of Supply Chain Simulation	4
1.5.1	Spreadsheet-Based Simulation	5
1.5.2	System Dynamics	5
1.5.3	Discrete Events Systems Dynamic	6
1.5.4	Business Games	7
1.6	Techniques for Supply Chain Simulation	7
1.7	Conclusions	8
	References	8
2	Conceptual Framework for Supply Chain Simulation	11
2.1	Introduction	11
2.2	The Supply Chain Network Structure	11
2.2.1	Identifying Supply Chain Members	12
2.2.2	Network Structural Dimensions	13
2.3	Supply Chain Business Processes	14
2.4	Supply Chain Components	17
2.5	Supply Chain Simulation Procedures	17
2.6	Learning Activity	21
2.7	Conclusions	21
	References	21
3	Bullwhip Effect in Supply Chains	23
3.1	Introduction	23
3.2	Examples of the Bullwhip Effect	25

3.3	The Four Causes of the Bullwhip Effect	26
3.4	Measuring the Bullwhip Effect	28
3.5	Supply Chain Structure and the Bullwhip Effect	31
3.6	Conclusions	33
	References	34
4	System Dynamics: Main Concepts	37
4.1	Introduction	37
4.2	Causal Loop Diagram	38
4.3	Flow Diagram	42
4.4	Constructing a Model	43
4.4.1	Creating the Causal Loop Diagram	43
4.4.2	Creating the Flow Diagram	44
4.4.3	Model Validation	44
4.5	Supply Chain Simulation Variables	45
4.6	Conclusions	48
	References	48
5	Starting to Model the Supply Chain: Warehouse Management	51
5.1	Introduction	51
5.2	Nature of a Cause-and-Effect Diagram's Dynamic Performance: A Case of a Products Warehouse Management	52
5.3	Practice Problems	55
5.3.1	Problem 1	56
5.3.2	Solution to Problem 1	57
5.3.3	Problem 2	61
5.3.4	Solution to Problem 2	61
5.3.5	Problem 3	66
5.3.6	Solution to Problem 3	66
5.4	Conclusions	73
	References	73
6	Modeling a Traditional Supply Chain by Using Causal Loop Diagrams	75
6.1	Introduction	75
6.2	Patterns Used to Propose the Construction of a Traditional Supply Chain Model	76
6.3	A Traditional Supply Chain Modeling Proposal: Causal Loop Diagram	78
6.3.1	Physical Description of the Traditional Supply Chain	78
6.3.2	Causal Loop Diagram of a Traditional Supply Chain	79
6.4	Other Supply Chain Management Areas	84
6.5	Conclusions	87
	References	87

**7 Getting into Practice: Modeling an Entire
Traditional Supply Chain** 89

7.1 Introduction 89

7.2 Practice Problem: Modeling an Entire Traditional
Supply Chain 89

7.2.1 Observations for Constructing the Proposed Model 90

7.3 Solution to the Practice Problem 94

7.4 Conclusions 104

References 104
