Introduction	4
1 Scope	5
2 Normative references	5
3 Terms, definitions and symbols	6
4 Materials.....	8
5 Design	9
6 Lifting attachments.....	16
7 Manufacturing process - Welding procedures	16
8 Fabrication.....	18
9 Welded joints.....	18
10 Surface finish of material	18
11 Assembly	18
12 Repair of weld defects.....	19
13 Construction and workmanship.....	19
14 Testing and examination.....	20
15 New design tests.....	25
16 Information to be marked.....	26
17 Records.....	27
Annex A (normative) Description, evaluation of manufacturing defects and conditions for rejection of welded steel pressure drums at time of visual inspection.....	28
Annex B (informative) Examples of design test and batch test certificates	31
Annex C (informative) Guidance on the application of conformity assessment modules when using this standard.....	37
Bibliography	42
