|---------------------------------------------------------------------------------------------------------------|----|
| Foreword.....                                                                                                 | 3  |
| Introduction .....                                                                                            | 4  |
| 1 Scope .....                                                                                                 | 5  |
| 2 Normative references .....                                                                                  | 5  |
| 3 Terms and definitions .....                                                                                 | 7  |
| 4 Functional requirements .....                                                                               | 8  |
| 5 Requirements and tests .....                                                                                | 9  |
| 6 Inspection .....                                                                                            | 23 |
| 7 Quality .....                                                                                               | 23 |
| 8 Type tests .....                                                                                            | 23 |
| 9 Functional and other qualification tests .....                                                              | 23 |
| 10 Marking .....                                                                                              | 24 |
| Annex A (normative) Type test on general design and production of pipeline valves .....                       | 25 |
| Annex B (normative) Strength test on torque/thrust .....                                                      | 30 |
| Annex C (normative) Functional test on clean gas (on option) .....                                            | 31 |
| Annex D (normative) Functional test for abrasion resistance to dirty service of ball valves (on option) ..... | 32 |
| Annex E (normative) Wall thickness measurement .....                                                          | 34 |
| Annex F (informative) Additional requirements .....                                                           | 35 |
| Annex G (informative) Summary of tests on product and type tests .....                                        | 36 |
| Bibliography .....                                                                                            | 41 |
