Foreword.....	4
Introduction	5
1 Scope	6
2 Normative references	6
3 Terms and definitions	6
4 Symbols and abbreviations	6
5 Sampling.....	7
6 Test conditions	7
7 Test material.....	7
8 Apparatus	8
8.1 Test rig	8
8.2 Cables	8
8.3 Force measuring device.....	8
8.4 Measuring device for displacement of the roofing tiles	8
8.5 Measuring device for weight	8
9 Test procedure	8
9.1 Measurement of the weight	8
9.2 Installation of battens, roofing tiles and fixings	8
9.3 Determination of the location of the forces on the test roof.....	9
9.4 Measurement of the uplift resistance	10
10 Evaluation and expression of results	12
11 Test report	13
Annex A (informative) Test rig	14
Annex B (normative) Arrangement of tiles on the test rig.....	15
B.1 General.....	15
B.2 Single lap interlocking tiles in straight bond	15
B.3 Single lap interlocking tiles in broken bond	15
B.4 Tiles with double-lap	16
Annex C (informative) Fixing patterns to be tested	17
C.1 General.....	17
C.2 Single lap interlocking tiles laid in straight bond.....	17
C.3 Single lap interlocking tiles laid in broken bond.....	19
C.4 Tiles with double overlap	20
Annex D (informative) Calculation of characteristic values.....	22
Annex E (informative) Calculation of the uplift resistance of clay or concrete tiles for roofing at various roof pitches, for a tested configuration	23
E.1 Correction for the influence of the weight of the roofing tiles.....	23
E.2 Characteristic value of the strength of fixings	24
E.3 Uplift resistance of partially or fully fixed roofing tiles for various roof pitches.....	25
Annex F (informative) Determining the uplift resistance of installed clay or concrete tiles for roofing in special roof zones.....	26

Annex G (informative) Considerations for partial safety factors for resistance.....27

G.1 Partial safety factors for resistance27

G.2 Unfavourable deviations from representative values.....27

G.3 Systematic differences between test conditions and practical situations.....28

G.4 Differences between test conditions and practical situations developing in time28

Annex H (informative) Examples of roof tiles for which the test method is not applicable29

Annex I (informative) Test Rig Commissioning Calibrations30

Bibliography.....31
