

1.1	Establishing efficiency and fairness: the role of the market	2
1.2	Efficiency, inequality and the role of the state	10
1.3	How does the market fail? Incentives and externalities	14
1.4	How does the market change? Price regulation	18
1.5	How does the market fail? Government intervention	22
1.6	How does the market change? International trade	26
1.7	How does the market change? Globalisation	30

2.1	Efficiency, inequality and the role of the market	32
2.2	Efficiency, inequality and the role of the state	36
2.3	How does the market fail? Incentives and externalities	40
2.4	How does the market change? Price regulation	44
2.5	How does the market fail? Government intervention	48
2.6	How does the market change? International trade	52
2.7	How does the market change? Globalisation	56

Contents

Preface	xv	3 Government and the Market	77
<i>Student Resources Flowchart</i>	xxi	3.1 The control of prices	78
<i>Lecturer Resources Flowchart</i>	xxii	3.2 Indirect taxes and subsidies	88
<i>Acknowledgements</i>	xxiii	3.3 Government rejection of market allocation	92
		3.4 Agriculture and agricultural policy	95

Part A INTRODUCTION

1 Economics and Economies	2
1.1 Economics and global issues	3
1.2 The core of economics	6
1.3 Different economic systems	18
1.4 The nature of economic reasoning	27

Boxes

1.1 What's the latest economics news?	5
1.2 Looking at macroeconomic data	9
1.3 The opportunity costs of studying	12
1.4 Scarcity and abundance	13
1.5 Command economies	22
1.6 Adam Smith (1723-90)	24
1.7 <i>Ceteris paribus</i>	28

Part B FOUNDATIONS OF MICROECONOMICS

2 Supply and Demand	34
2.1 Demand	35
2.2 Supply	40
2.3 Price and output determination	43
2.4 Elasticity	54
2.5 The time dimension	69

Boxes

2.1 UK house prices	48
2.2 Stock market prices	52
2.3 Social media influencers and their effect on demand curves	59
2.4 Any more fares?	60
*2.5 Using calculus to calculate the price elasticity of demand	62
2.6 Digital platforms	67
2.7 Short selling	73
2.8 Dealing in futures markets	74

Part C MICROECONOMIC THEORY

4 Background to Demand: the Rational Consumer	104
------------------------------------------------------	-----

4.1 Marginal utility theory	105
4.2 The timing of costs and benefits	113
*4.3 Indifference analysis	115

Boxes

*4.1 Using calculus to derive a marginal utility function	107
4.2 The marginal utility revolution: Jevons, Menger, Walras	111
4.3 Taking account of time	112
*4.4 Cash versus vouchers	120
*4.5 Giffen goods versus Giffen behaviour	126
*4.6 Consumer theory: a further approach	128

5 Consumer Behaviour in an Uncertain World	131
---------------------------------------------------	-----

5.1 Demand under conditions of risk and uncertainty	132
5.2 Behavioural economics	139

Boxes

5.1 Experimental economics	140
*5.2 The endowment effect	145
5.3 The best made plans	147
*5.4 A simple experiment to test for social preferences	149
5.5 Nudging people	150

6 Background to Supply	153	9 The Behaviour of Firms	257
6.1 The short-run theory of production	154	9.1 Problems with traditional theory	258
6.2 Costs in the short run	160	9.2 Behavioural economics of the firm	260
6.3 The long-run theory of production	166	9.3 Alternative maximising theories	264
6.4 Costs in the long run	177	9.4 Asymmetric information and the principal–agent problem	274
6.5 Revenue	181	9.5 Multiple aims	275
6.6 Profit maximisation	185	9.6 Pricing in practice	278
Boxes		Boxes	
6.1 <i>Malthus and the dismal science of economics</i>	156	9.1 <i>What do you maximise?</i>	259
6.2 <i>Diminishing returns in the bread shop</i>	158	9.2 <i>How firms increase profits by understanding 'irrational' consumers</i>	261
6.3 <i>The relationship between averages and marginals</i>	159	9.3 <i>Constraints on firms' pricing</i>	262
*6.4 <i>The relationship between TPP, MPP and APP</i>	159	9.4 <i>When is a theory not a theory?</i>	265
6.5 <i>The fallacy of using historic costs</i>	161	9.5 <i>Merger activity</i>	269
6.6 <i>Are fixed costs always the same as sunk costs?</i>	162	9.6 <i>Stakeholder power?</i>	276
6.7 <i>Cost curves in practice</i>	166	9.7 <i>How do companies set prices?</i>	278
*6.8 <i>The Cobb-Douglas production function</i>	171		
6.9 <i>Minimum efficient scale</i>	179		
*6.10 <i>Using calculus to find the maximum profit output</i>	188		
6.11 <i>The logic of logistics</i>	190		
7 Profit Maximising under Perfect Competition and Monopoly	194	10 The Theory of Distribution of Income	283
7.1 Alternative market structures	195	10.1 Wage determination under perfect competition	284
7.2 Perfect competition	197	10.2 Wage determination in imperfect markets	293
7.3 Monopoly	207	10.3 Capital and profit	307
7.4 The theory of contestable markets	217	10.4 Land and rent	317
Boxes		Boxes	
7.1 <i>Concentration ratios</i>	196	10.1 <i>Labour as a factor of production</i>	285
7.2 <i>Is perfect best?</i>	198	*10.2 <i>Using indifference curve analysis to derive the individual's supply curve of labour</i>	287
7.3 <i>E-commerce and market structure</i>	204	10.3 <i>Immigration and the UK labour market</i>	288
7.4 <i>Google – a monopoly abusing its market power?</i>	214	10.4 <i>Life at the mill</i>	294
7.5 <i>X inefficiency</i>	214	10.5 <i>The rise and decline of the labour movement in the UK</i>	298
7.6 <i>Cut-throat competition</i>	216	10.6 <i>How useful is marginal productivity theory?</i>	298
7.7 <i>Airline deregulation in the USA and Europe</i>	219	10.7 <i>The persistent gender pay gap?</i>	300
		10.8 <i>Flexible labour markets and the flexible firm</i>	302
		10.9 <i>Behaviour at work</i>	304
		10.10 <i>Stocks and flows</i>	309
		10.11 <i>The economics of non-renewable resources</i>	318
8 Profit Maximising under Imperfect Competition	223	Part D MICROECONOMIC POLICY	
8.1 Monopolistic competition	224		
8.2 Oligopoly	227		
8.3 Game theory	241		
8.4 Price discrimination	248		
Boxes			
8.1 <i>Selling ice cream as a student</i>	225	11.1 <i>Inequality and poverty</i>	325
8.2 <i>Declining levels of competition</i>	228	11.2 <i>Taxes, benefits and the redistribution of income</i>	336
8.3 <i>OPEC</i>	232	Boxes	
8.4 <i>Buying power</i>	239	11.1 <i>Poverty in the past</i>	334
8.5 <i>The prisoners' dilemma</i>	243	11.2 <i>Minimum wage legislation</i>	338
8.6 <i>What's the train fare to London?</i>	249	11.3 <i>The Laffer curve</i>	345
8.7 <i>Personalised pricing in digital markets</i>	250	*11.4 <i>Tax cuts and incentives</i>	347
8.8 <i>Just the ticket?</i>	254	11.5 <i>Replacing tax credits with Universal Credit</i>	350
		11.6 <i>What the future holds</i>	353

12 Markets, Efficiency and the Public Interest	355	Boxes	
12.1 Efficiency under perfect competition	356	15.1 Which country is better off?	463
12.2 The case for government intervention	364	15.2 Can GDP measure national happiness?	464
12.3 Forms of government intervention	378	15.3 Output gaps	467
*12.4 Cost-benefit analysis	387	15.4 The costs of unemployment	476
12.5 Government failure and the case for the market	395	15.5 The costs of inflation	484
		15.6 The Phillips curve	485
		15.7 Dealing in foreign exchange	493
Boxes			
12.1 The market for vaccines	368		
12.2 The police as a public service	374		
12.3 Should health-care provision be left to the market?	379		
12.4 Deadweight loss from taxes on goods and services	382		
*12.5 What price a human life?	390		
*12.6 HS2: is it really worth it?	391		
12.7 Mises, Hayek and the Mont Pelerin Society	397		
13 Environmental Policy	400	16 The Development of Macroeconomic Thinking: a Historical Perspective	500
13.1 Economics of the environment	401	16.1 The macroeconomic environment and debates	501
13.2 Policies to tackle pollution and its effects	406	16.2 Classical macroeconomics	502
13.3 The economics of traffic congestion	416	16.3 The Keynesian revolution	507
13.4 Urban transport policies	422	16.4 The rise of the monetarist and new classical schools	511
Boxes		16.5 The Keynesian response	515
13.1 The economics of biodiversity	404	16.6 An emerging consensus up to the crisis of 2008	519
13.2 Green taxes	410	16.7 The financial crisis and the COVID-19 pandemic	520
13.3 Placing a price on CO ₂ emissions	414		
13.4 International co-ordination on climate change	416		
13.5 Road pricing in Singapore	425		
		Boxes	
		16.1 Balance the budget at all costs	505
		16.2 The crowding-out effect	506
		16.3 Will wage cuts cure unemployment?	508
		16.4 Menu costs	517
		16.5 The paradox of thrift	525
Part E FOUNDATIONS OF MACROECONOMICS		Part F MACROECONOMIC MODELS, THEORIES AND POLICY	
14 Government Policy towards Business	428	17 Short-run Macroeconomic Equilibrium	530
14.1 Competition policy	429	17.1 Background to the theory	531
14.2 Privatisation and regulation	439	17.2 The determination of national income	541
Boxes		17.3 The simple Keynesian analysis of unemployment and inflation	546
14.1 Fixing prices at mini-golf meetings?	432	17.4 The Keynesian analysis of the business cycle	551
14.2 Expensive chips?	434		
14.3 Ticketing takeovers	438	Boxes	
14.4 Selling power to the people	444	*17.1 Using calculus to derive the MPC	535
		17.2 Confidence and spending	538
		17.3 Deriving the multiplier formula	545
		17.4 Allowing for inflation in the 45° line diagram	549
		17.5 Has there been an accelerator effect in the UK?	554
		17.6 Balance sheets and the business cycle	555
15 An Introduction to Macroeconomic Issues and Ideas	452	18 Banking, Money and Interest Rates	561
15.1 An overview of key macroeconomic issues	453	18.1 The meaning and functions of money	562
15.2 Measuring national income and output	460	18.2 The financial system	563
15.3 The business cycle	466	18.3 The supply of money	583
15.4 The circular flow of income	471	18.4 The demand for money	592
15.5 Unemployment	474	18.5 Equilibrium	595
15.6 Inflation	481		
15.7 The open economy	487	Boxes	
Appendix: Calculating GDP	495	18.1 Money supply, national income and national wealth	
			562

18.2 The growth of banks' balance sheets	568	Boxes	
18.3 The rise of securitisation	572	*21.1 Basing expectations on the past	663
18.4 UK and eurozone monetary aggregates	584	21.2 The accelerationist hypothesis	667
*18.5 Calculating the money multiplier	587	21.3 The rational expectations revolution	670
19 The Relationship between the Money and Goods Markets	599	21.4 Forecasting the weather	672
19.1 The effects of monetary changes on national income	600	21.5 The boy who cried 'Wolf'	673
19.2 The monetary effects of changes in the goods market	612	*21.6 A model of inflation bias	680
19.3 Modelling the interaction of monetary policy and the goods market	616	21.7 Inflation targeting	682
19.4 Credit cycles and the goods market	622		
*Appendix: The <i>IS/LM</i> model	628		
Boxes			
19.1 Choosing the exchange rate or the money supply	606	22.1 Fiscal policy and the public finances	694
19.2 Party games and the velocity of money	608	22.2 The use of fiscal policy	702
19.3 The stability of the velocity of circulation	610	22.3 Monetary policy	712
19.4 Crowding out in an open economy	614	22.4 The policy-making environment	731
19.5 Amplifiers and economic shocks	626	Boxes	
20 Aggregate Supply, Inflation and Unemployment	635	22.1 COVID, crises and public-sector spending	698
20.1 The <i>AD/AS</i> model	636	22.2 The fiscal impulse	704
20.2 <i>AD/AS</i> and inflation	641	22.3 Riding a switchback	709
20.3 Aggregate demand and supply with inflation targeting: The <i>DAD/DAS</i> model	644	22.4 The evolution of the Stability and Growth Pact	710
20.4 The labour market and aggregate supply	649	22.5 The operation of monetary policy in the UK	716
20.5 <i>AD/AS</i> and macroeconomic controversies	654	22.6 Central banking and monetary policy in the USA	718
Boxes		22.7 Quantitative easing	723
20.1 The aggregate demand curve	638	22.8 Monetary policy in the eurozone	725
20.2 Cost-push inflation and supply shocks	643	22.9 Goodhart's law	728
20.3 Analysing demand-pull and cost-push inflation using the <i>DAD/DAS</i> model	648	22.10 Using interest rates to control both aggregate demand and the exchange rate	730
20.4 Common ground between economists?	658		
21 The Relationship between Inflation, Unemployment and Output	661	23 Long-term Economic Growth and Supply-side Policies	736
21.1 The <i>EAPC</i> and the inflation–unemployment relationship	662	23.1 Introduction to long-term economic growth	737
21.2 Inflation and unemployment: the monetarist perspective	665	23.2 Economic growth without technological progress	743
21.3 Inflation and unemployment: the new classical position	669	23.3 Economic growth with technological progress	751
21.4 Inflation and unemployment: the modern Keynesian position	674	23.4 Approaches to supply-side policy	755
21.5 Central banks and inflation targeting	678	23.5 Supply-side policies in practice: market-orientated policies	757
21.6 Central banks, economic shocks and the macroeconomy: an integrated model	687	23.6 Supply-side policies in practice: interventionist policies	764
Boxes			
23.1 Labour productivity	741		
23.2 Getting intensive with capital	746		
23.3 UK human capital	754		
23.4 The supply-side revolution in the USA	758		
23.5 A modern approach to industrial policy	767		
Part G THE WORLD ECONOMY			
24 International Trade	772		
24.1 The advantages of trade	773		
24.2 Arguments for restricting trade	787		

24.3 Preferential trading	797	25.4 <i>The price of a Big Mac</i>	830
24.4 The European Union	802	25.5 <i>The euro/dollar seesaw</i>	832
24.5 The UK and Brexit	807	25.6 <i>The effectiveness of monetary and fiscal policies under floating exchange rates</i>	837
Boxes		25.7 <i>Sterling since the 1990s</i>	841
24.1 <i>Trading places</i>	776	25.8 <i>Do inflation rates explain longer-term exchange rate movements?</i>	843
24.2 <i>Sharing out the jobs</i>	779		
24.3 <i>Trade as exploitation?</i>	782		
24.4 <i>Free trade and the environment</i>	788		
24.5 <i>Strategic trade theory</i>	789		
*24.6 <i>The optimum tariff or export tax</i>	791	26 Economies in an Interdependent World	851
24.7 <i>Giving trade a bad name</i>	793	26.1 <i>Globalisation and the problem of instability</i>	852
24.8 <i>The Doha development agenda</i>	794	26.2 <i>European economic and monetary union (EMU)</i>	859
24.9 <i>Mutual recognition: the Cassis de Dijon case</i>	803	26.3 <i>Global inequality</i>	868
24.10 <i>Features of the single market</i>	804	26.4 <i>Trade and developing countries</i>	872
		26.5 <i>The problem of debt</i>	884
25 The Balance of Payments and Exchange Rates	813	Boxes	
25.1 Alternative exchange rate regimes	814	26.1 <i>Economic and financial interdependencies: Trade imbalance in the USA and China</i>	854
25.2 Fixed exchange rates	825	26.2 <i>Optimal currency areas</i>	862
25.3 Free-floating exchange rates	829	26.3 <i>The Human Development Index (HDI)</i>	872
25.4 Exchange rate systems in practice	838	26.4 <i>When driving and alcohol do mix</i>	878
*Appendix: The open economy and <i>IS/LM</i> analysis	845	26.5 <i>The evolving comparative advantage of China</i>	882
Boxes		26.6 <i>A debt to the planet</i>	886
25.1 <i>The balance of trade and the public-sector budget balance</i>	816	Postscript: Reality Island	893
25.2 <i>The UK's balance of payments deficit</i>	818		
25.3 <i>The effectiveness of fiscal and monetary policies under fixed exchange rates</i>	826	Appendix 1: Some Techniques of Economic Analysis	A:1
		Appendix 2: Websites	A:15
		Threshold Concepts and Key Ideas	T:1
		Glossary	G:1
