Foreword3

1 Scope4

2 Normative references4

3 Terms and definitions4

4 Method description6

4.1 Principle.....6

4.2 Reagents and materials7

4.3 Apparatus9

4.4 Sample tube conditioning10

4.5 Sampling.....10

4.6 Procedure11

4.7 Calculation of mass concentration of benzene13

4.8 Report14

5 Determination of measurement uncertainty14

5.1 Introduction14

5.2 Parameters contributing to measurement uncertainty14

6 Recommendations for use16

Annex A (informative) Diffusive uptake rates for benzene on sorbent tubes (without membrane)17

Annex B (informative) Description of sorbent types.....18

Annex C (informative) Guidance on sorbent selection19

Annex D (informative) Guide on sorbent use20

Annex E (informative) Assessment of performance indicators and uncertainty contributions21

Annex F (informative) Performance characteristics30

Bibliography32
