|-----------------------------------------------------------------------------------------------------------------------------------|----|
| Foreword                                                                                                                          | iv |
| Introduction                                                                                                                      | v  |
| 1 Scope                                                                                                                           | 1  |
| 2 Normative references                                                                                                            | 1  |
| 3 Terms and definitions                                                                                                           | 1  |
| 4 Detailed uncertainty budget                                                                                                     | 3  |
| 5 Uncertainty determination by inter-laboratory measurements                                                                      | 3  |
| 5.1 General                                                                                                                       | 3  |
| 5.2 Measurement situations                                                                                                        | 3  |
| 5.3 Measurement conditions                                                                                                        | 3  |
| 5.4 Number of participating laboratories                                                                                          | 4  |
| 5.5 Stating the test results of inter-laboratory measurements                                                                     | 4  |
| 5.6 Choice of test specimen                                                                                                       | 4  |
| 5.6.1 General                                                                                                                     | 4  |
| 5.6.2 Use of single test specimen — Same material circulated among participants                                                   | 4  |
| 5.6.3 Use of several test specimens taken from a production lot — Nominally identical material exchangeable among participants    | 5  |
| 5.6.4 Use of several test specimens constructed <i>in-situ</i> — Nominally identical material not exchangeable among participants | 5  |
| 5.7 Laboratories with outlying measurement results                                                                                | 5  |
| 5.8 Verification of laboratory results by results of inter-laboratory tests                                                       | 5  |
| 6 Uncertainties associated with single-number values                                                                              | 6  |
| 7 Standard uncertainties for typical measurands                                                                                   | 7  |
| 7.1 General                                                                                                                       | 7  |
| 7.2 Airborne sound insulation                                                                                                     | 7  |
| 7.3 Impact sound insulation                                                                                                       | 8  |
| 7.4 Reduction of transmitted impact noise by floor coverings                                                                      | 9  |
| 8 Application of the uncertainties                                                                                                | 10 |
| Annex A (informative) Example of handling uncertainties in building acoustics                                                     | 12 |
| Annex B (informative) Example for the calculation of the uncertainty of single number values                                      | 14 |
| Annex C (informative) Detailed uncertainty budget                                                                                 | 17 |
| Annex D (informative) Upper limit for the standard deviation of reproducibility for airborne sound insulation                     | 19 |
| Bibliography                                                                                                                      | 21 |
