

Contents

Introduction.....	9
1. Technology-determined training for firefighters to enhance preparation and pre-planning activities for wildfire response	15
1.1. Specifics of wildfire response	15
1.2. SILVANUS approach to training in preparation and pre-planning activities for wildfire response	21
1.3. General implementation of new technologies for training purposes ...	26
2. Reference detection technologies in enhancement of the preparation and pre-planning activities for wildfire response in training of firefighters	31
2.1. Fire detection using IoT devices	31
2.1.1. Technology in a nutshell	31
2.1.2. Operational protocol of the technology use	34
2.1.3. Enhancement capabilities.....	40
2.1.4. Safety issues for the deployment of the technology.....	42
2.2. Fire detection at the Edge	44
2.2.1. Technology in a nutshell	44
2.2.2. Operational protocol of the technology use	47
2.2.3. Enhancement capabilities.....	49
2.2.4. Safety issues for the deployment of technology.....	51
2.3. Fire detection based on social sensing	53
2.3.1. Technology in a nutshell	53
2.3.2. Operational protocol	56
2.3.3. Enhancement capabilities.....	60
2.3.4. Safety issues for deployment of the technology.....	61

3 Streamlining preparation and pre-planning activities for fire response using reference calculation tools for firefighter training	65
3.1. Biodiversity profile mobile app (Woode).....	65
3.1.1. Technology in a nutshell	65
3.1.2. Operational protocol	66
3.1.3. Enhancement capabilities.....	69
3.1.4. Safety issues for deployment of technology.....	70
3.2. Fire danger risk assessment.....	73
3.2.1. Technology in a nutshell	73
3.2.2. Operational protocol	76
3.2.3. Enhancement capabilities.....	78
3.2.4. Safety issues for the deployment of the technology	79
3.3. Fire spread forecast	81
3.3.1. Technology in a nutshell	81
3.3.2. Operational protocol	84
3.3.3. Enhancement capabilities.....	86
3.3.4. Safety issues for deployment of the technology	88
4. Enhancement of preparation and pre-planning activities for wildfire response using reference operational end-technology tools for firefighter training	91
4.1. Fire monitoring using UAVs (drones).....	91
4.1.1. Technology in a nutshell	91
4.1.2. Operational protocol	95
4.1.3. Enhancement capabilities.....	98
4.1.4. Safety issues for deployment of the technology	101
4.2. Use of UGVs (robots).....	104
4.2.1. Technology in a nutshell	104
4.2.2. Operational protocol	106
4.2.3. Enhancement capabilities.....	109
4.2.4. Safety issues for deployment of the technology	110
4.3. Forward Command Centre.....	114
4.3.1. Technology in a nutshell	114
4.3.2. Operational protocol	117
4.3.3. Enhancement capabilities.....	121
4.3.4. Safety issues for deployment of the technology	124
4.4. MESH-in-the-Sky	128
4.4.1. Technology in a nutshell	128
4.4.2. Operational protocol	131
4.4.3. Enhancement capabilities.....	134
4.4.4. Safety issues for deployment of the technology	136

5. Enhancement of preparation and pre-planning activities for wildfire response with the use of decision support systems for firefighter training	141
5.1. Multilingual Forest Fire Alert System (DSS-MFAS)	141
5.1.1. Technology in a nutshell	141
5.1.2. Operational protocol	143
5.1.3. Enhancement capabilities.....	146
5.1.4. Safety issues for deployment of the technology.....	148
5.2. Resource Allocation of Response Teams (DSS-RART).....	149
5.2.1. Technology in a nutshell	149
5.2.2. Operational protocol	152
5.2.3. Enhancement capabilities.....	154
5.1.4. Safety issues for deployment of the technology.....	156
5.3. Priority Resource Allocation based on Forest Fire Probability (DSS-PRA).....	158
5.3.1. Technology in a nutshell	158
5.3.2. Operational protocol	161
5.3.3. Enhancement capabilities.....	164
5.3.4. Safety issues for deployment of the technology.....	166
5.4. Evacuation Route Planning (DSS-ERP).....	168
5.4.1. Technology in a nutshell	168
5.4.2. Operational protocol	171
5.4.3. Enhancement capabilities.....	173
5.4.4. Safety issues for deployment of the technology.....	175
6. Enhancement of preparation and pre-planning activities for wildfire response with the use of reference societal involvement tools for firefighter training	179
6.1. Augmented reality / virtual reality training for firefighters	179
6.1.1. Technology in a nutshell	179
6.1.2. Operational protocol	182
6.1.3. Enhancement capabilities.....	184
6.1.4. Safety issues for the deployment of the technology.....	186
6.2. Citizen engagement application	189
6.2.1. Technology in a nutshell	189
6.2.2. Operational protocol	192
6.2.3. Enhancement capabilities.....	195
6.2.4. Safety issues for deployment of the technology.....	196
6.3. IT Dashboard.....	198
6.3.1. Technology in a nutshell	198
6.3.2. Operational protocol	200

6.3.3. Enhancement capabilities.....	204
6.3.4. Safety issues for deployment of the technology.....	205
Conclusion.....	209
