Overall Aspects of Glasses for Photonic Devices	1
J. L. Clabel H., G. Lozano C., I. C. Pinto, R. F. Falci, V. A. G. Rivera, Y. Messaddeq, and E. Marega Jr.	
Redox Reactions in Glasses	53
Hosam Othman	
Phosphate Glasses: Synthesis, Properties and Applications	79
Bhasker Pratap Choudhary and N. B. Singh	
Structural and In Vitro Bioactivity of Phosphate-Based Glasses for Bone Regeneration	113
M. Mohan Babu, P. Venkateswara Rao, Nibu Putenpurayil Govindan, Raghavendra Gujjala, and P. Syam Prasad	
Advances in Chalcogenide Glasses (ChGs): Past, Present, and Future Applications	153
Neeraj Mehta	
Advances in Luminescent Glass Research Towards High-End Applications	169
Erdinç Erol, Miray Çelikkilek Ersundu, and Ali Erçin Ersundu	
Synthesis and Characterization of Rare Earth Doped ZnO–Al₂O₃–SiO₂ Glasses and Transparent Glass-Ceramics	213
Itamar Nunes de Assis Junior, Alisson Torquato, and M. Reza Dousti	
Porphyrin and Phthalocyanine as Materials for Glass Coating—Structure and Properties	241
Barbara Popanda and Marcin Środa	

Phthalocyanine and Porphyrin Films on Glass Substrates—Processing, Properties, and Applications	319
