

Contents

List of Important References and Their Abbreviations	xiii
1. Introduction to the Chemical Industry: An Overview	1
2. General Characteristics of the Chemical Industry	20
3. Leading Chemicals and Chemical Companies	28
4. Sulfuric Acid and Its Derivatives	43
5. Industrial Gases	58
6. Inorganic Nitrogen Compounds	70
7. Chemicals from Limestone	82
8. Sodium Chloride Derivatives	96
9. Miscellaneous Inorganic Chemicals	109
10. Petroleum Refining Processes	112
11. Seven Basic Organic Chemicals	127
12. Derivatives of Ethylene	149
13. Chemicals from Propylene and Butylene	169
14. Aromatic Chemicals	189
15. Chemicals from Methane	205
16. Basic Polymer Chemistry	210
17. Plastics	242
18. Fibers	266
19. Elastomers	281

20. Coatings	294
21. Adhesives	304
22. Pesticides	311
23. Fertilizers	331
24. Pulp, Paper, and Other Wood Products	338
25. The Pharmaceutical Industry	353
26. Surfactants, Soaps, and Detergents	382
27. The Chemical Industry and Pollution	394
Appendix: Possible Subjects for Case Studies	408
Index	411
