

## CONTENTS

|   |     |
|---|-----|
| Preface   | vii |
| 1. Solid-state Polymerization   | 1   |
| G. C. EASTMOND  |     |
| <i>The Donnan Laboratories, University of Liverpool,<br/>Liverpool 7</i>  |     |
| 2. A Review of the Poly(azoles)   | 47  |
| J. P. CRITCHLEY   |     |
| <i>Royal Aircraft Establishment, Ministry of Technology,<br/>Farnborough, Hants</i>   |     |
| 3. Thermodynamic and Physical Properties of Polymer Crystals<br>Formed from Dilute Solution                                   | 163 |
| L. MANDELKERN   |     |
| <i>Department of Chemistry and Institute of Molecular<br/>Biophysics, Florida State University, Tallahassee, Florida</i>      |     |
| 4. Gel Permeation Chromatography  | 201 |
| J. F. JOHNSON   |     |
| <i>Department of Chemistry and Institute of Materials Science,<br/>University of Connecticut, Storrs, Connecticut, U.S.A.</i> |     |
| and   |     |
| R. S. PORTER  |     |
| <i>Polymer Science and Engineering Program, University of<br/>Massachusetts, Amherst, Massachusetts, U.S.A.</i>               |     |
| Author Index  | 257 |
| Subject Index   | 271 |
