Hans Wolfgang Kohlschütter

Relationships between the Chemistry of Dispersed
Metals and Chemical Syntheses with Metal Atoms ... 1

Philip S. Skell, and Michael J. McGlinchey

Reactions of Transition Metal Atoms with Organic
Substrates 7

George C. Pimentel

Isolation and Reactions of Metal Atoms in Matrices . 21

Max Auwärter

Reactions between Metal Atoms and Gases during the
Production of Thin Films in High Vacuum 43

Rolf Niedermayer

Formation of Ad-Layers and Clusters on Condensation
of Metal Vapors on Solid Surfaces 59

Walter Reichelt

Production and Condensation of Metal Vapors in Large
Quantities 79

Peter L. Timms

Synthetic Reactions of Metal Atoms at Temperatures of
10 to 273° K 93

*Ernst A. Koerner von Gustorf, Ottmar Jaenicke,
Otto Wolfbeis, and Colin R. Eady*

The Laser-Evaporation of Metals and Its Application
to Organometallic Synthesis 107

Kenneth J. Klabunde

Reactions of Metal Atoms with Fluorocarbons 135

E. P. Kündig, M. Moskovits, and G. A. Ozin

Transition Metal Atoms in the Synthesis of Binuclear Complexes	151
---	-----

James J. Turner

Photochemistry in Matrices and Its Relevance to Atom Synthesis	187
---	-----

Ramond K. Sheline, and James L. Slater

Spectral Evidence for Lanthanoid and Actinoid Carbonyl Compounds	203
---	-----

Raymond K. Sheline, and Harald Mahnke

The Flipping of CO Ligand Groups in Metal Carbonyl Compounds and its Frequency in $\text{Fe}(\text{CO})_5$	219
---	-----
