

CONTENTS

Preface	vii
Theoretical and experimental study of mixing of two co-axial confined jets in a cold model furnace A. K. Khalil, F. M. El-Mahallawy and N. M. Rafat	1
The effect of the exit section geometry and furnace length on mixing in a cold model industrial furnace F. M. El-Mahallawy and A. A. Hassan	17
Study of mixing of two coaxial swirling jets in a cold model furnace F. M. El-Mahallawy and M. A. Habib	35
Effect of combustion and similarity between hot and cold flow patterns in a cylindrical oil fired furnace F. M. El-Mahallawy, Y. H. El-Banhawy and K. H. Khalil	49
Effect of some parameters on the characteristics of heat liberated along a cylindrical reversed flow furnace F. M. El-Mahallawy, K. H. Khalil, and A. H. Abdel Hafiz	65
Theoretical investigation of the effect of combustion air swirl on the characteristics of the central recirculation zone in furnaces H. A. Moneib, A. K. Khalil, F. M. El-Mahallawy and K. H. Khalil	81
Study of the heat release rate in turbulent free premixed flames I. E. Megahed, F. M. El-Mahallawy and K. H. Khalil	93
Study of heat transfer in flame tube of a fire-tube boiler K. H. Khalil, M. S. Abdel Salam and A. Z. El Sotouhy	107
Effect of scale and shape of combustion zones on heat transfer in furnaces F. M. El-Mahallawy and N.M. Rafat	119
Theoretical analysis of radiant, convective and total heat transfer in different shape combustion zones F. M. El-Mahallawy	131
Theoretical study of heat transfer by radiation in a cylindrical oil-fired furnace F. M. El-Mahallawy	147
Heat transferred and combustion in fire tube boiler furnaces K. H. Khalil and T. W. Abou-Arab	159
Effect of the air swirl on the heat transfer by convection in furnaces F. M. El-Mahallawy	169

Effect of some parameters on the radiant heat transfer in a cylindrical oil-fired furnace. F. M. El-Mahallawy, S. A. Farag and F. M. Yowakim	181
Flow calculation in injection processes A. G. Awn and D. B. Spalding	195
Validation of three-dimensional cold-flow predictions inside a can combustor M. A. Serag-Eldin and D. B. Spalding	215
Numerical computations of turbulent swirling flames in axisymmetric combustors E. E. Khalil	231
Index	247
