

Contents

<i>Preface</i>	vii
<i>Acknowledgements</i>	xi

Advanced Materials

(*Senior Editors*: M. DOYAMA, S. SŌMIYA and M. HASEGAWA)

Rare Metals: Blue Skies Ahead H. KANEKO	1
Development of the Electron Microscope in Japan K. ITO	12
Micro-biosensors for Clinical and Food Analyses E. TAMIYA and I. KARUBE.	44
The Future of Engineering Plastics H. G. RAMMRATH	60
High-Temperature Oxide Superconductors: Structural and Compositional Aspects in the Manifestation of Superconductivity K. KISHIO	70
Advanced Ferrous Materials T. KOHNO	88
Design and Development of Superalloys in Japan M. YAMAZAKI.	105
Carbon Fibers and Their Composites K. OKUDA	119
Structural Change of Gels Prepared from Highly Acidic Tetramethoxy- silane Solutions in the Drying Process J. YAMAGUCHI, H. KOZUKA and S. SAKKA.	140

Synthesis of SiC–AlN Ceramic Alloy by the Combination of Reaction Sintering and HIP J.-F. LI and R. WATANABE	147
Energy Equilibria and Rate Process in Brittle Fracture Y. INOMATA.	154
Atomic Crack Tips in Covalent Crystal H. TANAKA, Y. BANDO, M. MITOMO and Y. INOMATA.	161
Theoretical Calculation of the Rate of Crack Propagation and Time to Failure in SiC Single Crystal Y. INOMATA.	167
Formation of Intermetallic Compound Layer Formed by Diffusion Treatment of Thermal Spray Coatings, and its Application S. OKI, K. KAMACHI and S. GOHDA	173
Effects of Al ₂ O ₃ : SiO ₂ Ratio of the Starting Mixture on the Composition, Microstructure and Mechanical Properties of Mullite Produced by Reaction Sintering P. D. D. RODRIGO and P. BOCH	180
Development of Direct Observation Method for Internal Structure in Silicon Nitride Granule and Green Body M. INOUE, J.-Y. KIM, Z. KATO, N. UCHIDA, K. UEMATSU and K. SAITO	192
Structural, Electrical and Optical Characterization of Sputtered ZnO _x Thin Film T. NISHIHARA, N. FUJIMURA and T. ITO.	200
Influence of External Stress for Non-Equilibrium Thin Films N. FUJIMURA, S. TACHIBANA and T. ITO.	205
Thin Films of YBaCuO Prepared by Multilayer Evaporation Process X. K. WANG, D. X. LI, J. Q. ZHENG, J. B. KETTERSON and R. P. H. CHANG.	211

Zirconia and Zircon Ceramics
(Senior Editor: S. SŌMIYA)

Toughening Mechanisms for Monolithic Ceramics M. V. SWAIN	219
--	-----

Optimisation of Y_2O_3 Doped ZrO_2 Powder (Y-TZP)	
A. J. HARTSHORN and M. BABA	277
Thermal Shock Fracture of Zirconia Ceramics	
T. SATO, M. ISHITSUKA, T. ENDO and M. SHIMADA	285
Phase Transformation Characteristics of Nano-Sized Zirconia-Alumina Composite Powder	
J. L. SHI, Z. X. LIN and D. S. YAN	307
Strength Evaluation of Y_2O_3 -Stabilized Tetragonal ZrO_2 Polycrystals with Scanning Laser Acoustic Microscopy	
M. OISHI and K. NOGUCHI	321
Synthesis of Zircon	
S. KOMARNENI and R. ROY	329
Design and Application of a Zircon Advanced Refractory Ceramic	
R. C. GARVIE, J. DRENNAN, M. F. GOSS, S. MARSHALL and C. URBANI	340

Hydrothermal Reactions

(*Senior Editor: S. SŌMIYA*)

Hydrothermal Processing of Zircon	
H. KIDO and S. KOMARNENI.	358
Preparation of Yttrium Carbonate by Hydrothermal Precipitation Method	
K. HISHINUMA, T. KUMAKI, Z. NAKAI, T. AKIBA, Y. SUWA and S. SŌMIYA.	370
High Pressure Hydrothermal Growth of Beryl Single Crystals	
K. KODAIRA and T. FURUSAKI.	385
Microstructure-Designed Hydroxyapatite Ceramics Prepared by Hydrothermal Hot-Pressing	
K. IOKU, T. KAI, M. NISHIOKA, K. YANAGISAWA and N. YAMASAKI.	393
Hydrothermal Treatment of Radioactive Waste: Solidification of High-Level Radioactive Waste by Hydrothermal Hot-Pressing	
K. YANAGISAWA, M. NISHIOKA and N. YAMASAKI	407
Growth and Characterization of Some New Superionic Phosphates	
K. BYRAPPA	433

<i>Index of Contributors</i>	457
