Foreword.....	vii
Acknowledgments.....	ix
Editor.....	xi
Contributors.....	xiii
Common ionic liquids—structure, name, and abbreviation.....	xv
List of abbreviations.....	xxiii
Introduction.....	xxvii

Chapter 1	General review of ionic liquids and their properties.....	1
------------------	--	----------

Urszula Domańska

Chapter 2	Experimental and theoretical structure of ionic liquids.....	73
------------------	---	-----------

Tristan Gerard Alfred Youngs, Christopher Hardacre, and Claire Lisa Mullan

Chapter 3	Ionic liquid advances in optical, electrochemical, and biochemical sensor technology.....	99
------------------	--	-----------

*Sheila N. Baker, Taylor A. McCarty, Frank V. Bright, William T. Heller, and
Gary A. Baker*

Chapter 4	Ionic liquids as stationary phases in gas chromatography.....	139
------------------	--	------------

Jared L. Anderson

Chapter 5	Ionic liquids in liquid chromatography.....	167
------------------	--	------------

Apryll M. Stalcup

Chapter 6	Ionic liquids as background electrolyte additives in capillary electrophoresis.....	185
------------------	--	------------

Merike Vaher and Mihkel Kaljurand

Chapter 7	Ionic liquids as stationary phases in countercurrent chromatography	211
<i>Alain Berthod, Maria-Jose Ruiz-Angel, and Samuel Carda-Broch</i>		
Chapter 8	Gas solubilities in ionic liquids and related measurement techniques.....	229
<i>Joan Frances Brennecke, Zulema K. Lopez-Castillo, and Berlyn Rose Mellein</i>		
Chapter 9	Liquid–liquid extraction of organic compounds	243
<i>Igor V. Pletnev, Svetlana V. Smirnova, and Vladimir M. Egorov</i>		
Chapter 10	Separation of metal ions based on ionic liquids	269
<i>Huimin Luo and Sheng Dai</i>		
Chapter 11	Molecular spectroscopy and ionic liquids.....	295
<i>Mihkel Koel</i>		
Chapter 12	Raman spectroscopy, <i>ab initio</i> model calculations and conformational equilibria in ionic liquids.....	307
<i>Rolf W. Berg</i>		
Chapter 13	Nuclear magnetic resonance spectroscopy in ionic liquids	355
<i>Ralf Giernoth</i>		
Chapter 14	Ionic liquids and mass spectrometry.....	371
<i>Andreas Tholey</i>		
Chapter 15	Future prospects.....	397
<i>Mihkel Koel</i>
