Preface	5
Chapter 1. Introduction	1
Chemical and Allied Products Industries.....	2
Chemical Industry.....	3
Characteristics	3
The Beginnings	4
Research and Development/Engineering Technology	5
History	6
Language of Chemistry	7
Chemistry	8
Properties and Changes.....	8
Substance States.....	9
Chemical Substances.....	10
Chemical Representation	11
Symbols of Common Elements	12
Divisions.....	13
General Definitions	14
Chapter 2. Important Inorganic Chemicals	15
1999 U.S. Annual Production.....	16
Sulfuric Acid (H_2SO_4)	17
Nitrogen (N_2)	19
Inorganic Nitrogen Compounds	20
Oxygen (O_2).....	21
Lime (CaO).....	23
Ammonia (NH_3).....	24
Phosphoric Acid (H_3PO_4)	25
Chlorine (Cl_2).....	26
Sodium Hydroxide (NaOH)	28
Sodium Carbonate (Na_2CO_3).....	30
Nitric Acid (HNO_3).....	32
Hydrogen (H_2)	34
Chapter 3. Organic Chemistry	35
Organic Chemistry	36
Inorganic Compounds	37
Structure	38

Carbon Chains	39
Carbon–Carbon Multiple Bonds	40
Aliphatic Hydrocarbons	41
Paraffins	41
Structure	42
Structure: Long Hydrocarbon Chains	43
Isomers	44
Paraffin Names	46
Paraffins	48
Functional Groups	49
Formulae	50
Paraffins: Chemical Properties	51
Types of Carbon Atoms	51
Chlorination	52
Nitration	53
Oxidation	53
Pyrolysis or “Cracking”	53
Isomerization	53
Unsaturated Hydrocarbons	54
Olefins	55
Olefins: Chemical Properties	56
Unsaturated Hydrocarbons	57
Acetylenes	57
Oxygenated Organic Compounds	58
Oxidation	59
Alcohols	60
Polyalcohols	61
Manufacture of Alcohols	62
Aldehydes	63
Ketones	64
Acids	65
Esters	67
Ethers	69
Nitrogen-Based Organic Compounds	70
Amines	71
Amides	72
Chapter 4. Aromatic Organic Chemistry	73
Aromatic Organic Chemistry	74
Benzene	74
Substituted Benzenes	76
Polyaromatic Compounds	84
Carboxylic Acids	85
Phenols	87
Amines	89

Benzene-Based Intermediates for Epoxy Resins and Polycarbonates.....	90
Benzene-Based Intermediates to Polyurethanes.....	91
Chapter 5. Polymer Chemistry	93
Polymers	94
Natural Polymers	95
Polymer Structure	96
Polymer Crystallinity.....	98
Polymer Classes.....	99
Polymer Synthesis	100
Step Growth Polymerization	101
Examples	102
Chain Growth (Addition) Polymerization.....	105
Typical Chain Growth Polymers	108
Copolymers	109
Polyethylene.....	110
Polypropylene	111
Poly(vinyl chloride).....	112
Polystyrene.....	113
Engineering Resins	114
Fibers.....	115
Chapter 6. High-Volume Organic Chemicals.....	117
High-Volume Organic Chemicals.....	118
Raw Material Sources	118
1999 U.S. Annual Production	119
Ethylene ($\text{CH}_2=\text{CH}_2$).....	120
Ethylene Derivatives	121
Ethanol	122
Ethylene Oxide.....	123
Vinyl Chloride.....	124
Ethylbenzene and Styrene	125
Propylene ($\text{CH}_3\text{CH}=\text{CH}_2$)	126
Propylene Derivatives	127
Acrylonitrile	128
Propylene Oxide.....	129
Isopropylbenzene.....	130
Epichlorohydrin.....	132
Butadiene ($\text{CH}_2=\text{CH}-\text{CH}=\text{CH}_2$).....	134
Butadiene Derivatives.....	135
Hexamethylenediamine	136
Cyclooctadiene and Cyclododecatriene.....	137
Benzene (C_6H_6).....	138
Benzene Derivatives	140
Cyclohexane	141

Nitrobenzene and Aniline	143
Maleic Anhydride.....	144
Xylenes ($C_6H_4(CH_3)_2$).....	145
Xylene Derivatives.....	146
Phthalic Anhydride (from o-Xylene).....	146
Terephthalic Acid and Dimethyl Terephthalate	147
Chapter 7. Environmental Protection and Waste Disposal	149
Environmental Protection	150
Types of Possible Environmental Pollution by the Chemical Industry.....	151
To the Air	151
To Water	151
Methods of Pollution Control.....	152
Pollution Control Laws and Regulations	153
Partial History of Pollution and Pollution Control by the Chemical Industry	154
Information Sources	157
Index.....	159
