

Contents

1. The Modern Problem of Data Analysis	I
2. Why Is Fourier Transform Spectrometry Important?	7
A Little History	8
Two Ways of Thinking	15
Superposition of Waves	17
3 The Fourier Transform	19
Phase in Fourier Transforms	25
The Fast Fourier Transform	30
The Missing Frequencies	31
4 Advanced Data Processing	35
Convolution	35
Cross-Correlation	39
Autocorrelation	45

Lock-in Amplification	47
Correlation Chromatography	52
Fluorescence Lifetimes	57
5 Fourier Transform—The Math	61
Orthogonality	64
Alternatives to the Fourier Transform	67
6 Fourier Transform Infrared Spectrometry	71
7 Fourier Transform Nuclear Magnetic Resonance Spectrometry	85
8 Fourier Transform Mass Spectrometry	95
Index	101
