

CONTENTS

	PAGE
<i>jednostki</i> Units and their Dimensions and C. G. S. Equivalents	xi
CHAPTER I.—The Atom and the Molecule	1
CHAPTER II.—The Kinetic Theory of Matter: Gases	9
CHAPTER III.—The Kinetic Theory of Matter: Liquids	38
CHAPTER IV.—The Crystalline State of Matter	60
CHAPTER V.—Laws of Chemical Equilibrium <i>equilibrium</i>	80
CHAPTER VI.—Equilibrium between Different Phases of a Pure Sub- stance	114
CHAPTER VII.—Solutions	135
CHAPTER VIII.—Surface Chemistry and Solutions	175
CHAPTER IX.—Equilibria Involving Ions in Solution	186
CHAPTER X.—Conductivity	221
CHAPTER XI.—Electrode Potentials	244
CHAPTER XII.—The Concept of Entropy and the Third Law of Thermo- dynamics	279
CHAPTER XIII.—Physical Properties and Molecular Constitution	286
CHAPTER XIV.—The Rate and Mechanism of Chemical Reaction	299
CHAPTER XV.—The Atom	342
CHAPTER XVI.—The Molecule	379
CHAPTER XVII.—The Activation of Atoms and Molecules	401
