

# CONTENTS

<u>Y. BABA</u>	Entropy and Hausdorff dimension of a sequence of coordinate functions in base- $r$ expansion	1
<u>A. A. BOROVKOV</u>	General theorems of convergence for random processes	7
<u>D. M. CHIBISOV</u>	Asymptotic expansions for Neyman's $C(\alpha)$ tests	16
<u>M. FUKUSHIMA</u>	On the generation of Markov processes by symmetric forms	46
<u>B. GRIGELIONIS</u>	On nonlinear filtering theory and absolute continuity of measures, corresponding to stochastic processes	80
<u>D. V. GUSAK</u>	On the continuous passage through a fixed level of a homogeneous process with independent increments on a Markov chain	95
<u>A. S. HOLEVO</u>	Statistical problems in quantum physics	104
<u>S. IHARA</u>	Optimal coding in white Gaussian channel with feedback	120
<u>N. IKEDA</u> and <u>S. WATANABE</u>	The local structure of a class of diffusions and related problems	124
<u>M. KANDA</u>	Remarks on Markov processes having Green functions with isotropic singularity	170
<u>T. KAWADA</u> and <u>N. KŌNO</u>	On the variation of Gaussian processes	176
<u>T. KAWATA</u>	On a class of linear processes	193
<u>R. KONDO</u> and <u>Y. ŌSHIMA</u>	A characterization of potential kernels for recurrent Markov chains with strong Feller transition function	213
<u>S. KOTANI</u>	On a Markov property for stationary Gaussian processes with a multidimensional parameter	239
<u>M. KOWADA</u>	Convergence rate in the ergodic theorem for an analytic flow on the torus	251
<u>V. M. KRUGLOV</u>	Convergence of numeric characteristics of sums of independent random variables and global theorems	255
<u>I. KUBO</u>	Ergodicity of the dynamical system of a particle on a domain with irregular walls	287
<u>Yu. V. LINNIK</u> , <u>L. B. KLEBANOV</u> and <u>A. L. RUKHIN</u>	On "attraction domains" in the theory of sequential estimation	296
<u>G. MARUYAMA</u>	Applications of Ornstein's theory to stationary processes	304
<u>S. NAKAO</u>	Comparison theorems for solutions of one-dimensional stochastic differential equations	310
<u>M. NISIO</u>	Remarks on probabilistic solutions of certain quasilinear parabolic equations	316

# VI

<u>H. NOMOTO</u>	On white noise and infinite dimensional orthogonal group	326
<u>A. A. NOVIKOV</u>	On moment inequalities and identities for stochastic integrals	333
<u>Y. OKABE</u>	On a Markovian property of Gaussian processes	340
<u>H. OODAIRA</u>	The log log law for certain dependent random sequences	355
<u>B. A. ROGOZIN</u>	The concentration functions of sums of independent random variables	370
<u>H. SATO</u>	On Lie group structure of subgroups of $O(S)$	377
<u>V. V. SAZONOV</u>	On the multidimensional central limit theorem with a weakened condition on moments	384
<u>A. N. SHIRYAYEV</u>	Statistics of diffusion type processes	397
<u>T. SIRAO</u>	On branching Markov processes with derivative	412
<u>V. STATULEVICIUS</u>	On limit theorems for random processes	433
<u>V. N. SUDAKOV</u>	A remark on the criterion of continuity of Gaussian sample function	444
<u>Y. TAKAHASHI</u>	$\beta$ -transformations and symbolic dynamics	455
<u>K. TAKEUCHI</u>	On location parameter family of distributions with uniformly minimum variance unbiased estimator of location	465
<u>H. TANAKA</u>	On Markov process corresponding to Boltzmann's equation of Maxwellian gas	478
<u>M. TSUCHIYA</u>	On some perturbations of stable processes	490
<u>T. WATANABE</u>	Some recent results on processes with stationary independent increments	498
<u>M. P. YERSHOV</u>	Extensions of measures. Stochastic equations	516
<u>M. P. YERSHOV</u>	On stochastic equations	527
<u>V. M. ZOLOTAREV</u>	Exactness of an approximation in the central limit theorems	531
	Record of meetings	544
	Organizing committee	548
	List of participants	548
