<i>Preface</i>	xv
<i>About the editors</i>	xvii
<i>List of contributors</i>	xx
<b>1 Autonomous vehicles</b>	<b>1</b>
RASHMI KUMARI, SUBHRANIL DAS, ABHISHEK THAKUR, ANKIT KUMAR AND RAGHWENDRA KISHORE SINGH	
1.1 Introduction	1
1.2 Importance of artificial intelligence (AI) in autonomous vehicles	3
1.3 AI-driven decision making	6
1.4 AI techniques and deep learning algorithms	9
1.5 Sensor fusion and data integration in autonomous vehicles	12
1.6 Perception system in autonomous vehicles	15
1.7 Human-AI interaction in autonomous vehicles	16
1.8 Safety and reliability in AI-driven autonomous vehicles	17
1.9 Conclusion	20
References	20
<b>2 Explainable artificial intelligence: fundamentals, approaches, challenges, XAI evaluation, and validation</b>	<b>25</b>
MANOJ KUMAR MAHTO	
2.1 Fundamentals of XAI	25
2.2 Introduction to explainable artificial intelligence	26
2.3 XAI and its significance	26
2.4 Key concepts in explainability	27

- 2.4.1 *Model transparency* 28
- 2.4.2 *Interpretability vs. transparency* 28
- 2.4.3 *Trustworthiness* 28
- 2.5 *Approaches to developing XAI models* 29
- 2.6 *Model transparency* 30
  - 2.6.1 *Transparent models in XAI* 30
  - 2.6.2 *Limitations and use cases* 30
- 2.7 *Rule-based systems* 31
  - 2.7.1 *Rule-based approaches to XAI* 31
  - 2.7.2 *Scalability and complexity* 32
- 2.8 *Feature importance analysis* 32
  - 2.8.1 *Shap and lime methods* 32
  - 2.8.2 *Applications in various domains* 33
- 2.9 *Visualization techniques* 33
  - 2.9.1 *Visualizing model decisions* 34
  - 2.9.2 *Practical implementations* 34
- 2.10 *Challenges of implementing XAI in autonomous vehicles* 34
- 2.11 *Trade-Offs between performance and explainability* 35
  - 2.11.1 *Balancing act: performance vs. interpretability* 36
  - 2.11.2 *Strategies for achieving balance* 36
- 2.12 *Handling uncertainty* 37
  - 2.12.1 *Uncertainty in autonomous vehicle context* 37
  - 2.12.2 *Probabilistic models and uncertainty management* 38
- 2.13 *Safety and reliability* 38
  - 2.13.1 *Safety considerations in XAI* 38
  - 2.13.2 *Integration of safety mechanisms* 39
- 2.14 *Human-AI interaction* 39
  - 2.14.1 *Designing user-friendly XAI interfaces* 40
  - 2.14.2 *Ensuring positive user experience* 40
- 2.15 *XAI evaluation and validation* 40
- 2.16 *Metrics for evaluating explainability* 41
  - 2.16.1 *Measuring fidelity, comprehensibility, and trustworthiness* 42
  - 2.16.2 *Tailoring metrics to specific use cases* 42
- 2.17 *User studies* 43
  - 2.17.1 *Conducting user-centric XAI evaluations* 43
  - 2.17.2 *Methodologies and best practices* 43
- 2.18 *Simulation and testing* 44
  - 2.18.1 *Simulated environments for XAI validation* 44
  - 2.18.2 *Real-world testing scenarios* 45
- 2.19 *Regulatory compliance* 45

2.19.1	<i>Regulatory frameworks for XAI integration</i>	46
2.19.2	<i>Industry standards and guidelines</i>	46
2.20	<i>Conclusion</i>	46
	<i>References</i>	47
<b>3</b>	<b>Explainable artificial intelligence in autonomous vehicles: prospects and future direction</b>	<b>50</b>
	MANARELDEEN AHMED, ZEINAB E. AHMED, AND RASHID A. SAEED	
3.1	<i>Introduction</i>	50
3.2	<i>Current state of XAI in autonomous vehicles</i>	52
3.2.1	<i>Autonomous vehicles</i>	52
3.2.2	<i>Explainable artificial intelligence (XAI)</i>	53
3.2.3	<i>Case studies of XAI techniques in autonomous vehicles</i>	54
3.3	<i>Challenges and limitations of XAI in autonomous vehicles</i>	61
3.4	<i>Future trends in XAI for autonomous vehicles</i>	64
3.5	<i>Conclusion</i>	65
	<i>References</i>	66
<b>4</b>	<b>XAI applications in autonomous vehicles</b>	<b>73</b>
	LINA E. ALATABANI AND RASHID A. SAEED	
4.1	<i>Introduction</i>	73
4.2	<i>Background and review of related work</i>	74
4.2.1	<i>XAI method for convolutional neural networks in self-driving cars</i>	74
4.2.2	<i>The internet of vehicles structure and need for XAI-IDS</i>	76
4.2.3	<i>XAI frameworks</i>	76
4.2.4	<i>Practical implementation of XAI-based models</i>	76
4.3	<i>Internet of vehicles (IoV) network architecture</i>	77
4.3.1	<i>Autonomous vehicle components and design</i>	79
4.3.2	<i>Applications and services</i>	84
4.3.3	<i>Current issues</i>	85
4.4	<i>XAI methods and algorithms</i>	86
4.4.1	<i>XAI methods can be sub-divided into four categories</i>	86
4.4.2	<i>XAI algorithms in autonomous vehicles</i>	88
4.5	<i>XAI models to improve overall system performance</i>	92
4.6	<i>Discussion</i>	94
4.7	<i>Conclusion</i>	95
	<i>References</i>	95

<b>5</b>	<b>Emerging applications and future scope of internet of vehicles for smart cities: a survey</b>	<b>100</b>
	JYOTI SHARMA, MANISH BHARDWAJ, AND NEELAM CHANTOLA	
5.1	<i>Introduction</i>	100
5.2	<i>Layered architecture of IoV</i>	106
5.3	<i>Literature survey</i>	107
5.3.1	<i>Applications of IoV in smart cities</i>	108
5.4	<i>Issues and challenges of IoV</i>	110
5.5	<i>Future scope of IoV</i>	111
5.6	<i>Conclusion</i>	112
	<i>References</i>	112
<b>6</b>	<b>Future issues and challenges of internet of vehicles: a survey</b>	<b>116</b>
	MANISH BHARDWAJ, SUMIT KUMAR SHARMA, NITIN KUMAR, AND SHWETA ROY	
6.1	<i>Introduction</i>	116
6.2	<i>Literature survey</i>	119
6.3	<i>IoV ecosystem</i>	121
6.4	<i>Internet of vehicles applications</i>	124
6.5	<i>Summarized challenges and future research directions</i>	126
6.6	<i>Conclusion</i>	130
	<i>References</i>	130
<b>7</b>	<b>Feature designing and security considerations in electrical vehicles utilizing explainable AI</b>	<b>134</b>
	MANDEEP KAUR AND VINAYAK GOEL	
7.1	<i>Feature designing for smart electrical vehicles</i>	134
7.2	<i>Explainable recommendations and decision support</i>	137
7.2.1	<i>Building trust through explainable recommendations</i>	140
7.3	<i>Addressing user concerns and misconceptions</i>	140
7.3.1	<i>User education and training</i>	140
7.3.2	<i>Continuous improvement and feedback</i>	141
7.3.3	<i>User feedback and iterative design</i>	141
7.3.4	<i>Importance of user feedback</i>	141
7.3.5	<i>Gathering user feedback</i>	142
7.3.6	<i>Surveys and questionnaires</i>	142
7.3.7	<i>User interviews and focus groups</i>	142
7.3.8	<i>User testing and observations</i>	142

7.4	<i>Online communities and social media</i>	143
7.4.1	<i>Incorporating explainable AI in user feedback</i>	144
7.4.2	<i>Safety considerations in smart cars</i>	144
7.4.3	<i>Importance of safety in smart cars</i>	144
7.4.4	<i>Safety challenges in smart cars</i>	144
7.4.5	<i>Explainable AI for safety in smart cars</i>	145
7.4.6	<i>Decision explanation</i>	145
7.4.7	<i>Error detection and diagnosis</i>	145
7.4.8	<i>Safety validation and certification</i>	145
7.4.9	<i>Privacy and data protection</i>	145
7.4.10	<i>Collaborative safety</i>	146
7.4.11	<i>Human-machine interaction for safety</i>	146
7.4.12	<i>Security challenges in smart cars</i>	146
7.4.13	<i>Cybersecurity risks</i>	147
7.4.14	<i>Data privacy and protection</i>	147
7.4.15	<i>Malicious attacks on AI systems</i>	147
7.4.16	<i>Supply chain security</i>	148
7.4.17	<i>Over-the-air updates</i>	148
7.4.18	<i>XAI for security enhancement</i>	148
7.4.19	<i>Explainable AI for safety and security</i>	149
7.4.20	<i>Enhancing safety with explainable AI</i>	149
7.4.21	<i>Real-time risk assessment</i>	149
7.4.22	<i>Error detection and diagnosis</i>	149
7.4.23	<i>Safety-critical decision support</i>	149
7.4.24	<i>Strengthening security with explainable AI</i>	150
7.4.25	<i>Intrusion detection and prevention</i>	150
7.4.26	<i>Vulnerability assessment</i>	150
7.4.27	<i>Adversarial attack detection</i>	150
7.4.28	<i>Regulatory compliance and accountability</i>	150
7.4.29	<i>Compliance with safety standards</i>	151
7.4.30	<i>Ethical decision-making</i>	151
7.4.31	<i>Accountability and liability</i>	151
7.4.32	<i>Importance of privacy and data protection in smart cars</i>	152
7.4.33	<i>Privacy challenges in smart cars</i>	152
7.4.34	<i>Role of explainable AI in privacy and data protection</i>	153
7.4.35	<i>Challenges in implementing XAI for privacy and data protection</i>	154

## 8 Feature detection and feature visualization in smart cars utilizing explainable AI 158

MANDEEP KAUR AND VINAYAK GOEL

- 8.1 *Introduction* 158
  - 8.1.1 *Feature visualization* 158
  - 8.1.2 *Benefits of feature importance and feature visualization* 159
  - 8.1.3 *Challenges and limitations* 160
  - 8.1.4 *Local explanations and counterfactuals* 161
  - 8.1.5 *Local explanations* 161
  - 8.1.6 *Counterfactuals* 161
  - 8.1.7 *Benefits and applications* 162
  - 8.1.8 *Model-agnostic explanations* 163
  - 8.1.9 *Understanding model-agnostic explanations* 163
  - 8.1.10 *Techniques for model-agnostic explanations* 163
  - 8.1.11 *Global explanations* 164
  - 8.1.12 *Local explanations* 164
  - 8.1.13 *Application of model-agnostic explanations in smart cars* 164
  - 8.1.14 *Safety and decision-making* 165
  - 8.1.15 *Regulatory compliance and accountability* 165
  - 8.1.16 *User experience and trust* 165
  - 8.1.17 *Rule extraction and rule sets* 166
  - 8.1.18 *Rule extraction techniques* 166
  - 8.1.19 *Rule sets for decision-making* 166
  - 8.1.20 *Benefits and limitations of rule extraction and rule sets* 167
