Contents

Preface, xi

CHAPTER 1 ▪ Introduction to Sensor Technology 1

SENSOR 1

STATIC AND DYNAMIC CHARACTERISTICS OF SENSOR 3

Introduction to Multifunction Sensor 6

Introduction to Integrated Sensor 8

BIBLIOGRAPHY 9

CHAPTER 2 ▪ Multifunction Sensor 11

A. FEATURES OF A MULTIFUNCTIONAL SENSOR 12

B. RELIABILITY OF A MULTIFUNCTIONAL SENSOR, OXFORD UNIVERSITY AND FOXBORO COMPANY DEVELOPED THE CONCEPT OF A SELF-VALIDATING (SEVA) SENSOR. 12

TRUCK SAFETY MONITORING, A TACTILE SENSOR FOR 3-D FORCE MEASUREMENTS 13

EDDY CURRENT SENSOR FOR CRACK POSITION DETECTION 13

A MULTIFUNCTIONAL SENSOR FOR ELECTROLYTE CONCENTRATION 13

A FIBER ATTENUATION-BASED MULTIFUNCTIONAL OPTICAL FIBER SENSORS 14

MULTIFUNCTIONAL OPTICAL SENSOR MEASURES VARIATION OF HEIGHT AND TRANSLATION OF A SURFACE 14

MEASUREMENT OF THE CONCENTRATION AND TEMPERATURE OF A DIELECTRIC SOLUTION 14

MULTIFUNCTIONAL SENSOR FOR THE MEASUREMENT OF A TWO-PHASE STATE OF OIL/WATER IN PIPELINES 14

SIMULTANEOUS MEASUREMENTS OF ELECTRICAL CONDUCTANCE AND PROPAGATION TIME AND USING A PIEZOELECTRIC CERAMIC MULTIFUNCTIONAL TRANSDUCER 14

USING A MULTIFUNCTIONAL SENSOR FOR MEASURING THE ANGULAR POSITION WITH MAGNETIC FLUID 15

MATHEMATICAL MODELLING OF SENSOR 15

Probabilistic Sensor Model 15

Artificial Neural Network for Linearization and Calibration 16

Distributed Regression Method 17

Data-Based Modeling 17

SIGNAL RECONSTRUCTIONS OF MULTIFUNCTION SENSORS 17

RELIABILITY, FAULT DIAGNOSIS, AND SELF VALIDATION 19

APPLICATIONS OF MULTIFUNCTIONAL SENSORS 20

A. Bio Sensors 23

B. Environmental Applications 23

C. Medical Applications 23

BIBLIOGRAPHY 24

CHAPTER 3 ■ Calibration and Linearization Technique 31

FUZZY-BASED LINEARIZATION METHOD 33

VERIFICATION OF FUZZY-BASED LINEARIZATION METHOD IN THE SIMULATION PLATFORM 36

IMPLEMENTATION OF FLM ON VIRTUAL INSTRUMENTATION PLATFORM 40

BIBLIOGRAPHY 47

CHAPTER 4 ■ Multifunction Data Fusion 49

CLASSIFICATION OF METHODS OF MDF 49

APPLICATION OF MULTI-SENSOR DATA FUSION 51

CHALLENGES OF MULTI-SENSOR DATA FUSION (MDF) IN MULTI-SENSOR SYSTEMS 52
BIBLIOGRAPHY 52

CHAPTER 5 ■ Case Studies 55

A. MULTIFUNCTIONAL SENSOR FOR MEASUREMENT OF TEMPERATURE AND LEVEL OF THE LIQUID 55
B. MEASUREMENT OF TEMPERATURE AND PRESSURE USING PIEZO-RESISTIVE SENSORS 56
C. MEASUREMENT OF LEVEL AND WATER CONTENT USING CAPACITIVE SENSING TECHNIQUE 57
D. LEVEL AND CONDUCTIVITY OF LIQUID USING INDUCTIVE SENSING TECHNIQUE 58
E. LEVEL AND QUANTITY OF ADDITIVE USING CAPACITIVE AND ULTRASONIC SENSING TECHNIQUES 58
F. LEVEL AND CONCENTRATION OF THE LIQUID USING PAU'S MULTI-SENSOR DATA FUSION 59
G. HUMIDITY, TEMPERATURE, AND LEVEL MEASUREMENT USING A MICRO-SENSOR 60
H. LEVEL AND CONCENTRATION OF THE LIQUID USING A CAPACITIVE SENSING TECHNIQUE 61
I. COMPENSATE FOR TEMPERATURE, LIQUID TYPE, HUMID AIR GAP, AND DUST 62
J. TEMPERATURE COMPENSATION OF LEVEL SENSORS 63
K. ACCURACY IMPROVEMENT OF A LEVEL SENSOR USING A CAPACITIVE SENSOR 64
BIBLIOGRAPHY 65

CHAPTER 6 ■ Development of a Multifunctional Admittance-Type Sensor and Its Instrumentation for the Measurement of Liquid Level and Temperature 67

OVERVIEW 67
METHOD OF DECOMPOSITION USING THEORETICAL APPROACH 69

DESIGN OF FUZZY-BASED INFERENCE MECHANISM 72
METHODS AND MATERIALS 74
The Experimental Setup 74
Design of the VI 75
RESULTS AND DISCUSSIONS 81
Results Obtained for the Measurement of Water Level 83
ERROR AND UNCERTAINTY ANALYSIS 83
Error Analysis 83
Uncertainty Analysis 85
COMPARATIVE ANALYSIS 87
APPLICATIONS 88
CONCLUSION 89
BIBLIOGRAPHY 89

CHAPTER 7 ▪ Summary 91

INDEX, 93
