

CONTENTS

Couple stress fluid past a sphere embedded in a porous medium – Krishna Prasad Madasu, Priya Sarkar	5
Two-dimensional analogies to the deformation characteristics of a falling droplet and its collision – Abid Hasan Rafi, Mohammad Rejaul Haque, Dewan Hasan Ahmed	21
Application of mixed-nanoparticle coating as a novel simple method in generating speckle pattern to study small fields of view by digital image correlation – Milad Zolfipour Aghdam, Naser Soltani, Hadi Nobakhti	45
Wear and surface characteristics on tool performance with CVD coating of $Al_2O_3/TiCN$ inserts during machining of Inconel 718 alloys – Shailesh Rao Agari	59
Hybrid nano improved phase change material for latent thermal energy storage system: Numerical study – Mohamed Lamine Benlekkam, Driss Nehari	77
Numerical analysis of structure, stability and entropy generation in biogas coflow diffusion flames – R. Nivethana Kumar, S. Muthu Kumaran, Vasudevan Raghavan	99
Design and analysis of cementless hip-joint system using functionally graded material – Saeed Asiri	129
Study on the ankle rehabilitation device – Minh Duc Dao, Xuan Tuy Tran, Dang Phuoc Pham, Quoc Anh Ngo, Thi Thuy Tram Le	147
Study on modeling and production inaccuracies for artillery firing – Mostafa Khalil	165

CONTENTS

Mathematical modelling of bridge crane dynamics for the time of non-stationary regimes of working hoist mechanism – Mirsad Čolić, Nedim Pervan, Muamer Delić, Adis J. Muminović, Senad Odžak, Vahidin Hadžiabdić.....	189
Effect of lubricant compressibility and variable viscosity on the performance of three-lobe journal bearing – Mushrek A. Mahdi, Basim Ajeel Abass	203
Numerical study of laminar non-premixed biogas-air flames behind backward facing steps – Alagani Harish, Vasudevan Raghavan	221
Modeling and analysis of energy and exergy performance of a PCM-augmented concrete-based Trombe wall systems – Benjamin O. Ezurike, Stephen A. Ajah, Uchenna Nwo-kenkwo, Chukwunenye A. Okoronkwo.....	245
Development of a grinding device for producing coal powder-raw materials of coal-water fuel – Igor P. Kurytnik, Ayanbergen K. Khassenov, Ulan B. Nussupbekov, Dana Z. Karabekova, Bekbolat R. Nussupbekov, Madina Bolatbekova	259
Measurement and evaluation of delamination factors and thrust force generation during drilling of multiwall carbon nanotube (MWCNT) modified polymer laminates – Kuldeep Kumar, Rajesh Kumar Verma.....	269
Meshless local Petrov-Galerkin method for rotating Rayleigh beam using Chebyshev and Legendre polynomials – Vijay Panchore	301
Application of unscented Kalman filter for clutch position control of automated manual transmission – Abbas Soltani, Milad Arianfard, Reza Nakhaie Jazar	319
