

CONTENTS

1. Aerosols in Modern Industry, by H. R. SHEPHERD.....	1
Insecticides.....	6
Room Deodorants.....	7
Artificial Snow.....	8
Organization of the Aerosol Industry.....	12
Outlook.....	15
2. Theory and Practice of Aerosols, by RALPH C. DOWNING.....	17
Aerosol Operation.....	17
Active Ingredient.....	19
Propellent.....	19
Solvent.....	29
Aerosol System.....	33
Heat Relationships.....	40
3. The Metal Container, by ROBERT A. FORESMAN, JR....	47
Steel and Tinplate Containers.....	47
Aluminum Containers in U. S. A.....	57
Stainless Steel.....	63
Industrial-Size Aerosol Containers.....	64
Decorative Metal Exterior Container.....	65
Worldwide Producers of Aerosol Containers.....	66
General Specifications of Metal Aerosol Containers.....	72
Interstate Commerce Commission Requirements for Aerosols	74
Appendix.....	76
4. Glass and Plastic Containers, by RALPH H. THOMAS.....	81
Glass.....	81
Plastic.....	110
5. Valves, by WALTER C. BEARD, JR.....	119
Introduction.....	119
Functions of the Valve.....	121
History of Aerosol Valves.....	124
Materials of Construction..	132
Spray Pattern.....	145
Particle Size.....	149
Delivery Rate.....	153
Weight Loss.....	154
Foam Valves.....	157
Glass Bottle Valves.....	161
Metering Valves.....	173
Drop Dispensing Valves.....	183
Food and Paste Valves.....	183
Paint Valves.....	187
Powder Valves.....	191
Hermetically Sealed Valves.....	193
Single-Shot Valves.....	194

Fire Extinguisher Valves.....	195
Reusable Valves.....	197
Transfer Valves.....	203
Vapor Tap Valves.....	204
Gulf SA Aerosol Valve.....	204
6. Propellents, by FRED T. REED.....	213
Definition and Classification.....	214
Propellant Compounds.....	215
Requirements of a Propellant.....	221
Vapor Pressures.....	223
Toxicity.....	227
Chemical Stability.....	229
Flammability.....	231
Solvent Power.....	232
Liquid and Vapor Densities.....	234
Effect on Packaging Materials.....	235
Miscellaneous Properties.....	236
Propellant Manufacture.....	237
Analytical Methods.....	238
7. Laboratory Techniques, by MONTFORT A. JOHNSEN.....	243
Preparation of Aerosols.....	244
Storage Testing of Aerosols.....	251
Preparing the Aerosol Formulation.....	256
Measurement of Pressure.....	258
Evaluation of Aerosol Valves.....	261
Flammability of Aerosols.....	265
Product Testing Techniques.....	267
Production Quality Control.....	272
Laboratory Reports.....	276
8. Factors in Formulation Design, by MORRIS J. ROOT.....	277
Spray or Liquid Characteristics.....	277
Spray Products.....	278
Standard Methods of Analyzing the Spray.....	281
Classification of Sprays.....	284
Liquid Dispensing.....	287
Container and Valve.....	288
Government Regulations.....	290
9. The Odor of Aerosol Products, by EDWARD SAGARIN.....	293
Proportions and Quantities Used.....	294
Problems Encountered by the Perfumer.....	295
Perfume and the Finished Product.....	308
Conclusion.....	310
10. Cosmetics: Fragrance and Personal Hygiene Products, by SAMUEL PRUSSIN.....	313
Shaving Cream.....	314
Shampoos.....	324
Hand and Body Creams.....	328
Hair Dressings.....	334
Fragrance Products.....	342

Bath and After Bath Preparations.....	345
Deodorants and Antiperspirants.....	347
Sunscreens.....	352
Toothpaste.....	357
Powders.....	360
11. Hair Cosmetics, by MARTIN G. BROOKINS.....	365
Packaging Problems.....	365
Types of Aerosol Hair Cosmetics.....	366
Hair Lacquer Formulations.....	370
Toxicity Screening and Testing.....	373
Laboratory Evaluation.....	376
Evaluation of Hair Sprays for Professional Use.....	379
Brilliantines.....	382
Shampoos.....	383
Hair Colors.....	384
12. Pharmaceutical Products, by IRVING PORUSH.....	387
Development of Pharmaceutical Aerosols.....	388
Stability Requirements.....	390
Topical Aerosol Medication.....	392
Pharmaceutical Aerosols for Internal Use.....	397
Control Procedures.....	405
13. Food Aerosols, by W. E. GRAHAM.....	409
Historical Background.....	409
Containers and Valves.....	411
Propellents.....	412
Whipped Cream and Toppings.....	415
Problems of New Food Aerosols.....	421
Government Regulations.....	427
14. Pesticides, by GEORGE W. FIERO.....	431
Commercial Use.....	433
Insecticidal Aerosol Compositions.....	436
Insecticidal Testing of Aerosols.....	440
High-Pressure Aerosol Formulations.....	441
Low-Pressure Aerosol Formulations.....	443
Aircraft Disinsection.....	453
Plant Aerosols.....	454
Miscellaneous Pressurized Pesticides.....	458
Government Requirements.....	462
Appendix A.....	467
Appendix B.....	475
Appendix C.....	482
15. Coating Compositions, by F. A. BOWER and F. S. PALMER.....	495
Properties Desired in Aerosol Paint.....	496
Selection of Components.....	498
Formulation.....	504
Common Defects of Paint Films.....	507
Testing of Aerosol Paints.....	508

16. Household and Industrial Specialties, by N. J. FROOT.	511
Space Deodorants.....	511
Artificial Snow.....	515
Clear Plastic Spray.....	517
Window Cleaners.....	518
Oven Cleaners.....	520
Spot Removers.....	521
Waterproofers.....	522
Fire Extinguishers.....	523
Suede Restorers.....	524
Charcoal Igniters.....	525
Shoe Polish.....	526
Miscellaneous Industrial Products.....	528
Appendix. Summary of Aerosol Shipping Regulations.....	531
Index.....	537
