|-------------------|---------------------------------------------|------|
| Foreword .....    |                                             | 3    |
| 1                 | Scope .....                                 | 4    |
| 2                 | Normative references .....                  | 4    |
| 3                 | Terms and Definitions .....                 | 4    |
| 4                 | Sampling and storage.....                   | 5    |
| 5                 | Test method.....                            | 5    |
| 5.1               | Preparation .....                           | 5    |
| 5.2               | Measurement of gradient $G$ .....           | 6    |
| 5.3               | Measurement of granularity $\sigma_D$ ..... | 7    |
| 5.4               | Measurement of CEN speed $S$ .....          | 9    |
| 5.5               | Other equipment and procedures.....         | 9    |
| 6                 | Limiting values for classification.....     | 9    |
| Bibliography..... |                                             | 12   |
